Architectural details of the Temple of Apollo in Delphi.

Architectural details of the Temple of Apollo in Delphi.

The Temple of Apollo in Delphi, showing the details of the Temple of Apollo.

Architectural details of the Temple of Apollo in Delphi, showing the details of the Temple of Apollo. The Temple of Apollo in Delphi is a classical building with a prominent portico supported by columns. The building is made of stone and has a red-tiled roof. The architecture is typical of the classical period, with a focus on symmetry and proportion. The Temple of Apollo in Delphi is one of the most important religious sites in ancient Greece, and it has been a major center of pilgrimage since the 6th century BC. The temple was destroyed by fire in 373 BC, but it was rebuilt in the 2nd century BC. The temple was a major center of pilgrimage, and it was one of the most important religious sites in ancient Greece.
